

HIGH AND LOW PRESSURE PNEUMATIC ACTUATORS

PALADON - ELECTRO HYDRAULIC ACTUATORS - for Gate Valves and Ball Valves where limited power supplies are available to operate the valve. Comes in Class 1 Div. 1 or 2 options in 110 VAC or 24 VDC with Solar Options.

BIFFI DIRECT GAS / HYDRAULIC ACTUATORS – For Gas Pipeline MOV, ESD and BDV Quarter Turn Ball Valve Applications. Utilizes direct high pressure pipeline gas for maximum torque to size ratio and available with various controls and accessories.

PIPER / PALADON - Hydraulic Self Contained Well Head ESD - Requires no external power to actuate. Installed on PIPER API 6A Pressure rated Ball Valves. Typically activated on loss of power to solenoid or hi-low pilot. Must manually pump valve back to open position

SAMSON CONTROL VALVES – Offer a wide variety of valve types including Globe, Plug, Ball, Segment Ball, High Performance Butterflies with various Positioners and Actuators.

FISHER CONTROL VALVES – Your number 1 source for High Quality Remanufactured FISHER Control Valves, Regulators and Positioners

ARGUS AUTOMATED MULTI PIG LAUNCHING VALVES – API 6D Licensed and Monogrammed Pigging Valves - Typical applications are include:

- Difficult to access remote installations
- high pigging frequency in wet gas lines
- CO2 or H2S is present and eliminates suiting up
- Emission sensitive areas where venting reductions are required

ELECTRIC ACTUATORS

PIPER / DRESSER SURE – Well Head Electric ESD – API 6 A Ball Valve with Fail Close Spring Return Class 1 Div. 1, 110 VAC Electric Remote and Local Open and Close Options with Gear Over Rides.

LANCASTER - Automated Well Head Choke – Angle Body in various API 6A Sizes and Pressure ratings. Low Torque design allows for low power 12 or 24 VDC actuators. Features also include ease of repair in line, high range of control and superior trim life in severe service.

PIPER / BERNARD – Well Head Electric ESD – Fail Close Spring Return Class 1 Div. 1, 110 VAC Electric Remote and Local Open and Close Options with Gear Over Rides.

TRIAC - Electric Motor Operated Manifold Valves – Available in 110 VAC and 24 VDC Class 1 Div. 1 classification. Options include Modulating Service, Local and remote operation, Manual Over ride. Offered on API 6A and 6D Ball Valves for On / Off Service and 3

SCV - API 6D GATE VALVES - Thru Conduit Expanding and Slab Gate Valves. 2" – 36" Class 150 - 1500. API 6D Licensed with monogram, API 607/6FA, NACE MR-0175, ISO 9001. Available with Handwheel, Gear or Actuated.
